## PROFESSIONAL EXPERIENCE

### Kaggle Contributor

[Kaggle](#)

07/2026 - Present | Remote

- Participate in ML competitions using feature engineering, model development, evaluation, and optimization.
- Build and evaluate Python ML pipelines using preprocessing, model selection, and validation techniques.

### Machine Learning Engineer Intern

[CodeAlpha](#)

07/2026 - 08/2026 | Remote

- Built and trained machine learning models using Python and deep learning frameworks.
- Worked across preprocessing, feature engineering, model training, and evaluation workflows.

### Artificial Intelligence Engineer Intern

[CodeAlpha](#)

07/2026 - 08/2026 | Remote

- Worked on Generative AI applications and LLM-based workflows for AI engineering tasks.
- Worked with Generative AI and Docker-based development workflows.

### Machine Learning Engineer Intern

[QSkill](#)

06/2026 - 07/2026 | Remote

- Worked on practical ML development and model-building workflows using Python-based data processing.

### Data Scientist Intern

[Zetheta Algorithms Private Limited](#)

06/2026 - 07/2026 | Remote

- Worked on ML, feature engineering, and data engineering tasks using practical datasets.
- Gained experience with CI/CD and software development workflows.

## PROFESSIONAL SUMMARY

Machine Learning and Generative AI developer with hands-on experience in Python, machine learning, data engineering, backend development, and LLM applications. Experienced in building and publishing software projects, developing ML solutions, participating in Kaggle competitions, and completing AI/ML engineering internships. Focused on machine learning systems, Generative AI, backend engineering, and open source.

## AREAS OF EXPERTISE

|                     |                         |
|---------------------|-------------------------|
| Python              | C++                     |
| Scikit-learn        | XGBoost                 |
| Feature Engineering | Model Evaluation        |
| Data Preprocessing  | TensorFlow              |
| LLMs                | PyTorch                 |
| Keras               | LangChain               |
| Prompt Engineering  | LLM APIs                |
| Ollama              | NumPy                   |
| Pandas              | Matplotlib              |
| FastAPI             | REST APIs               |
| Git                 | GitHub                  |
| Docker              | CI/CD                   |
| Linux               | Kaggle                  |
| PyPI                | Open Source Development |

Native

## HOBBIES & INTERESTS

- Chess — tactical and strategic play
- Open-source development
- Machine learning experimentation
- Coding and problem solving
